

Dry Cleaning Powder

OXY BOLT DCP[®]

Low-Maintenance Commercial Cleaning Powder

NO WASTE WATER RUNOFF . NON-TOXIC, REDUCED WASTE . NATURAL EARTHEN PRODUCT . BIOCONSUMPTION

3 SIMPLE STEPS FOR CLEANING

SPRINKLE ON STAIN

Apply to dry or wet concrete, asphalt, or other hard mineral-based surfaces.

BRUSH INTO SURFACE

Work into surface with stiff broom and Oxy Bolt DCP begins working immediately

SWEEP AWAY

Patent pending ceramic locks in and contains contaminates for easy disposal.

- Oxy Bolt DCP will not burn skin if exposed (unlike concrete cover-up products)
- During application, even on damp surfaces, the product is not slippery
- Co-efficient of friction on walking surfaces is dramatically increased after application
- Eliminates dangerous dilution errors regarding mixture of alkaline or acidic chemicals
- Weighing only 1 lb per gallon; heavy lifting back injuries are avoided
- Eliminates unwanted grease & odors which attracts various pests at kitchen entrances
- Kitchen grill and fry lines can be dry cleaned of excessive grease immediately
- Lowers liability for slips and falls.
- Reduces labor cost up to 75% by avoiding liquid set-up time & rinsing.
- Can be used all 4 seasons including winter months.
- Training is simplified; apply – brush in – sweep up excess. No confusing dilutions.
- Removes contaminates from facility rather than relocating to other areas by water.
- Customers avoid annoying over-spray, wet oily shoes, and extended down times.
- Spot clean fuel islands, parking spaces and drive thru's without down time.

PROACTIVE ENVIRONMENTAL CONSTRUCTION

Forget toxic, difficult to mix chemicals. Oxy Bolt DCP is easily applied to dry or damp surface and swept away. Its environmentally friendly oxygen reaction continues to work after the initial application.

- Locks in and contains contaminates. Non-Toxic and biodegradable
- Natural earthen product that adds oxygen and stimulates biological activity to waste stream
- Eliminates pressure washing or forced storm water run-off issues
- Reduces carbon footprint: 1 truckload of Oxy Bolt DCP = 13,824 or 9,216 lb while typical degreaser would require 4 truckloads for 13,824 gallons or 110,592 lb

*Oxy Bolt DCP has been clinically tested and is considered nonleaching for landfills based on typical cleaning procedures.
Oxy Bolt DCP has passed Paint Filter Testing* protocols along with an extensive TCLP.*
